Allowable Subject Matter

1. Claims 1-36 are allowed.
2. The following is an examiner's statement of reasons for allowance: the instant invention discloses a method, apparatus, and a computer-readable medium for recognizing handwritten characters. Upon acquisition of the handwritten character strokes, the instant invention generates sub-segments representing at least one character stroke, the sub-segments each having a boundary enclosing the at least one stroke of the sub-segment. After generating the sub-segments, the instant invention then merges the sub-segments when the distance between centroids of the sub-segments are less than a predetermined threshold, and generates segments representing possible characters from the sub-segments. These features in combination with all of the other elements of the claims are not taught or fairly suggested by the prior art of record.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
